

# ALTARO Office 365 Backup

Altaro Office 365 Backup is an annual subscription program that enables you to back up and restore all your Microsoft 365/Office 365 mailboxes, Teams, and files stored in OneDrive and SharePoint Document Libraries, through an online console. This gives you the ability to centrally manage all your backups. Your data is conveniently backed up to Altaro's secure Microsoft Azure infrastructure.

## Back up your Office 365 data

As Microsoft is not a data protection solution, Altaro enables you to back up and restore your Office 365 mailboxes, chats and files with ease.

## One all-inclusive fee

Your subscription includes backups, unlimited storage, support and access to a central management console for one or more years (you choose!).

## Scalability

Minimum annual starting subscription that includes up to 10 users. You can scale to tens of thousands of users.

## Unlimited storage

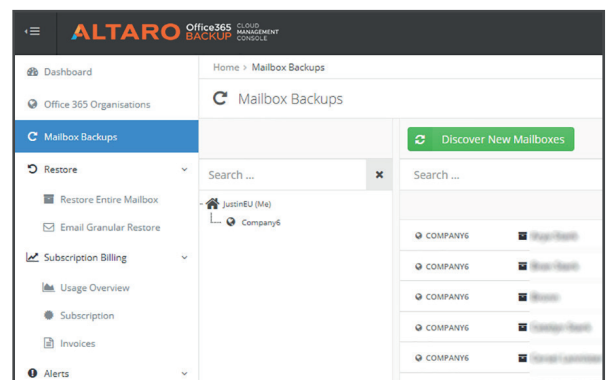

All your Microsoft 365/Office 365 backups are automatically saved to Altaro's secure cloud backup location hosted on Microsoft Azure Infrastructure.

With Altaro Office 365 Backup, you can back up and restore all your organization's Microsoft 365/Office 365 mailboxes, Teams Chats, and files in OneDrive/SharePoint Document Libraries through an annual or multi-year subscription. And you can centrally manage and monitor your backups through Altaro's cloud-based management console.

Altaro Office 365 Backup automatically backs up Microsoft 365 data and saves it to a secure cloud backup location on Altaro's Microsoft Azure infrastructure. Storage is unlimited.

## Benefits of the Altaro Office 365 Backup subscription program

- **Hassle-free backup and storage:** Benefit from the ease and convenience of backing up your Microsoft 365/Office 365 emails, Teams Chats, and files to Altaro's robust, secure Microsoft Azure infrastructure at no extra cost.
- **Easily restore items:** Restore misplaced, deleted, damaged or destroyed items. Access various restore options, including granular restores.
- **Centralized management and searches:** Manage and monitor all your organization's Microsoft 365 backups through a single online console. This also expedites backup searches.
- **Unbeatable value:** Priced per user per year. Minimum annual starting subscription of just 10 users. Volume discounts apply as you scale to tens of thousands of users. Includes 24/7 support.

# Why do I need a backup solution for my Microsoft 365 mailboxes and files?

There's a common misconception that Microsoft fully backs up Office 365 data as part of the subscription, but this is not the case.

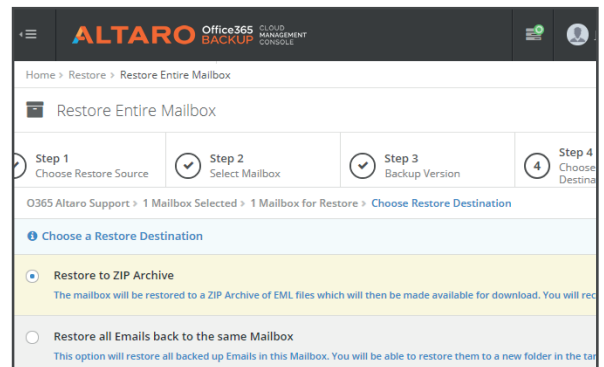

- **Microsoft doesn't provide native options to back up your data** - Microsoft is responsible for providing the necessary infrastructure and ensuring it all works, but it's your responsibility to protect your Microsoft 365/Office 365 mailboxes, chats and files.
- **Microsoft cannot help with unexpected data loss or damage** - Having a solid backup solution in place ensures that even if mailbox items or files disappear from the network or are rendered useless, you have access to a backed-up copy, eliminating problems or repercussions that could arise from the missing data.
- **Problems with accessing and searching email data** - Without a single backup location for a company's Microsoft 365/Office 365 data, this data cannot be protected and stored centrally for easy access, searching and recovery.

**That's why you need to back up your Microsoft 365/Office 365 data.**

## How Altaro Office 365 Backup helps you

As Microsoft does not offer its subscribers backup and recovery services, you need your own reliable setup to deal with unexpected data loss or damage. Altaro provides the backup and recovery solution you need, giving you peace of mind should your Microsoft 365/Office 365 data be lost or damaged.

- **Office 365 backups:** Automatic backups - simply "set it and forget it", while enjoying peace of mind thanks to a low recovery point objective (RPO) in case of data loss or damage.
- **Fast and simple recovery:** Various restore options for entire mailboxes and granular restore of selected mail items, as well as Team Chats as well as selected Team conversations and files in OneDrive and SharePoint.
- **Sturdy, unlimited backup storage:** You don't need to set up your own backup storage servers as your Microsoft 365 backups are automatically saved to a secure cloud backup location managed by Altaro.
- **Ease of access:** By backing up all a company's Microsoft 365 data into one location, this data can be managed, monitored, protected and stored centrally, for easy access, searching and recovery.
- **Great value:** For an all-inclusive annual or multi-year subscription, you get Microsoft 365/Office 365 backups, unlimited storage, management console access and 24/7 support with a call response of less than 30 seconds.
