

Mimosa B24 Backhaul Radio | End-of-Life Announcement

Date Issued: May 1, 2025

Product: B24 Backhaul Radio

Model Number(s): B24 | 100-00074

As we continue to evolve our product portfolio to meet growing network demands, Mimosa Networks® is announcing the End-of-Life (EOL) process for the B24 Backhaul Radio("Product").

We recommend transitioning to Mimosa's B6x product. With modular twist-on antenna options, GPS sync support, and up to 3 Gbps of unlicensed throughput across the 5 GHz and 6 GHz* bands, the B6x offers enhanced flexibility, higher capacity, and broader deployment potential. It is the ideal upgrade from the Product for networks seeking fiber-like speeds in a scalable, easy-to-deploy solution.

**6 GHz support is pending regulatory approval in the U.S. and will become available upon completion of FCC/AFC certification.*

Product Key Milestones:

Milestone	Description	Date
End-of-Life Announcement	End-of-Life/Product Discontinuance Announcement	May 1, 2025
End of Software Maintenance	The last date Mimosa will release any software maintenance or bug fixes for the Product.	May 1, 2025
End-of-Sale Date	The last date to order the Product from Mimosa and is no longer available for sale after this date.	June 30, 2025
End-of-Support Date	The last date to receive support for the Product.	Based on Warranty Terms

Recommended Replacement:

Part Number	Product	
PN: 100-00116	B6x Backhaul Radio	Unlicensed 3 Gbps capable Modular PTP backhaul radio with GPS sync, uses N5-X Antennas.

Support Commitments:

Mimosa will continue to provide technical support for the Products for the duration of each unit's applicable warranty period. RMA services will remain available for in-warranty units, per [Mimosa's standard warranty terms](#).

If a hardware issue occurs, customers should contact Mimosa Support to initiate the [RMA process](#). We recommend reviewing both the warranty and RMA policies to ensure smooth handling of any support needs.

Recommended Next Steps:

1. Evaluate your current and planned deployments to accommodate the transition.
2. Contact your Mimosa sales representative or authorized distributor to plan your migration strategy and check on product availability.
3. Review any necessary documentation and specifications for the suggested replacement product.
