

RMS MANAGEMENT PACK + EXTENDED WARRANTY

Remote management and
longer device protection in
one simple package

Manage remotely

Monitor and manage Teltonika
devices through RMS

Protect longer

Extend device warranty while it
is still active

Order simply

Fixed package pricing based on
product group

One package. Two clear benefits.

Combine RMS remote management with
extended warranty for eligible Teltonika devices.
Manage your fleet remotely and reduce
long-term service risk.

How it works

Choose device → Select package →
Add it in RMS → Start managing

Available package options

Package	RMS management	Warranty extension
12-month package	1 year	1 year
3-year full package	3 years	1 years
3-year full package	3 years	3 year
5-year RMS package	5 years	3 years

Important warranty rules - Active warranty required: add extended warranty before current coverage expires. Multiple extensions allowed: extend again while the device remains eligible. 5-year maximum: factory warranty plus all extensions cannot exceed 5 years. Automatic RMS check: eligibility is verified automatically in RMS.

**Ready to extend RMS management
and warranty coverage?**

Contact your Teltonika sales representative to check
product eligibility and pricing.
